VI. Eligibility for Assessment under the Farmland Assessment Act of 1983

Land is actively devoted to agricultural, horticultural, or forestry when at least one of the following criteria are met:

- 1. The use results in \$1,000 or more of agricultural, horticultural, or forestry products being produced and sold during the applicable year.
- The owner of the land filed a schedule F (Profit or Loss from Farming) form with the United States Department of 2. Treasury, Internal Revenue Service, for the applicable year.

In applying the criteria under this section, all contiguous parcels of land held by identical owners in identical proportions of ownership and in identical legal form of title, are considered as a single unit.

If the property receiving farmland assessment is applied to use other than agricultural, horticultural or forest purposes, it becomes subject to rollback taxes up to ten preceding years in accordance with 9 Delaware Code 8335(d)

Application must be submitted February 1, prior to the fiscal year.
